

Chemical and Compound Solutions

The Stutz Company is a manufacturer and supplier of plating processes, chemicals for the metal finishing industry, precision formulated lapping and buffing compounds, and heating and cooling products and accessories. Since 1921, our product range, customer service, application engineering support, and company culture have resulted in longstanding customer relationships within a wide variety of industries. Exceptional quality and quick order turnaround are mainstays to our business philosophy, from single drum orders to large quantity shipments.

COMPOUNDS

- Buffing Compounds
- Deburring Compound
- Polishing Compounds
- Stutz Proprietary Lapping Compounds

METAL FINISHING CHEMICALS

- Acid Zinc Brightener
- Alkaline Zinc Brightener
- Black Trivalent Chromate
- Blue Trivalent Chromate
- Cleaners
- Nickel Brightener
- Tin Brightener
- Nickel Stripper
- Trivalent Chromate
- Yellow Trivalent Chromate
- Zinc Nickel Brightener

HEATING & COOLING

- Electric Immersion Heaters
- External Heat Exchangers
- Teflon Immersion Coils/
Titanium Serpentine Coils
- Temperature Controllers

CHEMICALS

Including but not limited to:

- Ammonium Chloride
- Barium Carbonate
- Boric Acid Powder & Granular
- Caustic Potash Flakes
- Caustic Soda Beads
- Chromic Acid Flake
- Copper Cyanide
- Copper Cyanide (dry & liquid)
- Flocculants
- Liquid Caustic Soda
- Nickel Chloride (dry & liquid)
- Nickel Sulphate (dry & liquid)
- Nitric Acid
- Phosphoric Acid
- Potassium Chloride
- Potassium Copper Cyanide (dry & liquid)
- Potassium Cyanide (brick & granular)
- Potassium Silver Cyanide
- Potassium Stannate
- Rochelle Salts
- Silver Cyanide
- Sodium Copper Cyanide (dry & liquid)
- Sodium Cyanide (brick & granular)
- Sodium Hypo Chloride

- Stannous Sulfate
- Sulfuric Acid
- Zinc Cyanide
